

**OUTSIDE YOUR FACILITY.
WITHIN YOUR STANDARDS.**

10 QUESTIONS TO ASK YOUR PHARMACEUTICAL TRANSPORTATION PROVIDER

Your medicines leave a controlled facility.
Your quality and security standards should
travel with them.

ASK YOUR PROVIDER

HERE'S OUR ANSWER

- | | |
|--|--|
| 1. Is pharma your specialty? | We specialize in pharmaceutical logistics, combining GDP quality practices with TAPA security standards. |
| 2. Are you GDP accredited? | Yes. DeSpir holds organizational accreditation through HDA's PCSC GDP program. |
| 3. What does your TAPA certification cover? | Our FBSR 2025 Tier 1 certification covers freight brokerage security management. It does not separately certify every carrier. |
| 4. Who moves our medicines? | A qualified carrier network and vetted, GDP trained drivers. |
| 5. How do you manage temperature risk? | Temperature controlled transportation, defined procedures and temperature monitoring. |
| 6. Can you see what happens in transit? | GPS tracking, geofencing and event monitoring provide shipment visibility. |
| 7. Who watches outside office hours? | Our in-transit security team monitors shipments 24/7/365. |
| 8. What if we need extra protection? | We can integrate security escorts and additional monitoring according to shipment risk. |
| 9. Can you act when something goes wrong? | Our integrated capabilities include coordinated response and investigations. |
| 10. Can we look beyond your certificates? | Yes. Let's discuss your requirements and the supporting evidence relevant to your lanes. |

**Meet DeSpir at LogiPharma.
Let's discuss your lanes, temperature
requirements and security needs.**
